Diamond's Sparkle

Website Design UX/UI

The image displays the homepage of the Diamond Sparkle website. The header features a dark background with a starry pattern. The logo 'DIAMOND SPARKLE' is at the top left, accompanied by a stylized diamond icon. A navigation bar below includes links for About, Piricing, Women, Men, and Kids, along with a search bar and a 'Login' button. A large, bold text 'New Collection arrived!!' is prominently displayed on the left side. The main content area shows a collage of fashion items like a brown ribbed top, a plaid skirt, a white jacket, and a white coat on a mannequin. Three mobile phone screens in the foreground show the website's responsive design and the same promotional message. The overall aesthetic is elegant and modern.
